Reciprocity - Other UC Campuses

UCSF students may be seen at the student health service of any other UC campus: UC Berkeley, UC Davis, UC Irvine, UC Los Angeles, UC Merced, UC Riverside, UC San Diego, UC Santa Barbara and UC Santa Cruz. UCSF also welcomes students enrolled at other UC campuses to seek care at either of our outpatient clinics. The following statement applies to care at all UC student health services:

**Statement of Reciprocal Services**

*University of California Student Health Centers*

*If registered for a current term on any University campus, students have access to basic outpatient health care services of any other University campus, under conditions that apply to students registered on that campus.*

*Counseling and Psychological Services are provided as appropriate, guided by the student?s mental health care needs, the student?s duration of time away from their home campus, and resources available on the host campus. Care may be limited to a single assessment for acute symptoms, transitional services and/or referral to off-campus care.*

**What To Do If You Are a Non-UCSF Student visiting from another campus**

To be seen at the Parnassus or Mission Bay UCSF SHCS, please call for an appointment at *(415) 476-1281.* You may also walk in and request nurse triage if you are on campus and unsure if you need an appointment.

UC students from campuses other than UCSF should bring proof of enrollment by way of a printed fees statement and your current UC ID card or other valid picture ID to your appointment.

**Fees**

Visiting students enrolled in the student health insurance plan of their home campus may receive health and counseling services at the same fees as students who have waived enrollment in their own campus' sponsored health plan on the *host* campus. This applies regardless of whether the visiting student's health plan in UC SHIP or another campus-sponsored plan.
UCSF Students Seeking Care at Other Campuses

The following Question and Answer [1] provides information for UCSF student seeking care at another UC campus.
