# Professional Student Immunization Requirements

**MMR (Measles, Mumps, Rubella)** – 2 doses of MMR vaccine or two (2) doses of Measles, two (2) doses of Mumps and (1) dose of Rubella; or serologic proof of immunity for Measles, Mumps and/or Rubella. Choose only one option.

</tbody>
</table>
Hepatitis B Vaccination – 3 doses doses of Engerix-B, Recombivax or Twinrix or 2 doses of Heplisav-B followed by a QUANTITATIVE Hepatitis B Surface Antibody (titer) preferably drawn 4-8 weeks after 3rd dose. If negative, give a 4th dose and repeat a titer in 4-8 weeks. If negative complete the remainder of the second series followed by another titer drawn 4-8 weeks after the last dose of the second series. If Hepatitis B Surface Antibody is still negative after a secondary series, additional testing including Hepatitis B Surface Antigen should be performed. Documentation of Chronic Active Hepatitis B is for rotation assignments and counseling purposes only.

### Tuberculosis Screening History

#### Section A: (History of Negative TB Screening)
- At least one IGRA (QuantiFERON or T-SPOT) blood test performed within three months of first date on campus, or at least two Tuberculin skin tests, one of which must be completed within three months of first date on campus and the second within twelve months of first date on campus.

#### Section B: (History of Positive TB Screening)
- Documentation of positive testing, treatment if any, and a chest x-ray performed within three months of first date on campus.

#### Section C: (History of Active TB Disease)
- All fields completed. Chest x-ray must be performed within three months of first date on campus.
