| | | Gender |

| Immunization/TB Screening Categories | Required Data |
|--|---|
| Measles (Rubeola) NOTE: A PPD skin test must be placed the SAME day as a live virus vaccine OR at least 30 days after the administration of a live virus vaccine to be considered valid. | Positive Measles IgG Antibody titer (required) Titer Date ____/____/____ (positive titer only meets requirement) Measles or MMR Immunizations Dose 1 date: ____/____/____ <input type="checkbox"/> Measles or <input type="checkbox"/> MMR (select one) Dose 2 date: ____/____/____ <input type="checkbox"/> Measles or <input type="checkbox"/> MMR (select one) <ul style="list-style-type: none"> Strongly Recommended: dates of a previous dose of vaccine (measles or MMR) If you have a negative or indeterminate titer, obtain one dose of vaccine and repeat titer. If titer is still negative, contact Student Health. Vaccine doses must be at least 28 days apart. |
| Mumps NOTE: A PPD skin test must be placed the SAME day as a live virus vaccine OR at least 30 days after the administration of a live virus vaccine to be considered valid. | Positive Mumps IgG Antibody titer (required) Titer Date ____/____/____ (positive titer only meets requirement) Mumps or MMR Immunizations Dose 1 date: ____/____/____ <input type="checkbox"/> Mumps or <input type="checkbox"/> MMR (select one) Dose 2 date: ____/____/____ <input type="checkbox"/> Mumps or <input type="checkbox"/> MMR (select one) <ul style="list-style-type: none"> Strongly Recommended: dates of a previous dose of vaccine (mumps or MMR) If you have a negative or indeterminate titer, obtain one dose of vaccine and repeat titer. If titer is still negative, contact Student Health. Vaccine doses must be at least 28 days apart. |
| Rubella NOTE: A PPD skin test must be placed the SAME day as a live virus vaccine OR at least 30 days after the administration of a live virus vaccine to be considered valid. | Positive Rubella IgG Antibody titer (required) Titer Date ____/____/____ (positive titer only meets requirement) Rubella or MMR Immunizations Dose 1 date: ____/____/____ <input type="checkbox"/> Rubella or <input type="checkbox"/> MMR (select one) <ul style="list-style-type: none"> Strongly Recommended: dates of a previous dose of vaccine (rubella or MMR) If you have a negative or indeterminate titer, obtain one dose of vaccine and repeat titer. If titer is still negative, contact Student Health. |

Student Name: _____

| | |
|--|--|
| <p>Varicella (chicken pox)</p> <p>NOTE: A PPD skin test must be placed the SAME day as a live virus vaccine OR at least 30 days after the administration of a live virus vaccine to be considered valid.</p> <p>History of disease is not sufficient.</p> | <p>Positive Varicella IgG Antibody titer (required)</p> <p>Titer Date ____/____/____ (positive titer only meets requirement)</p> <p>Varicella Immunizations</p> <p>Dose 1 date: ____/____/____</p> <p>Dose 2 date: ____/____/____</p> <p><u>Please check titer first before receiving vaccine</u></p> <ul style="list-style-type: none"> Strongly Recommended: dates of two previous doses of vaccine (varicella) If you have a negative or indeterminate titer, obtain one dose of vaccine and repeat titer. If titer still negative, receive second dose of vaccine and repeat titer. If titer is still negative, contact Student Health. Vaccine doses must be at least 28 days apart. |
| <p>Tdap (tetanus, diphtheria, pertussis)</p> | <p>Tdap vaccine (required)</p> <p>Dose 1 date: ____/____/____</p> <ul style="list-style-type: none"> Vaccine must be Tdap, not Td. Tdap is required regardless of date of last Td injection. |
| <p>Hepatitis B</p> <p>Items A, B, or C on right will meet requirements.</p> | <p>A. At least 2 of 3 doses of Hepatitis B vaccine required (all 3 doses required if you have time to complete series), provide all three dates if series complete, AND Positive Hepatitis B surface antibody (required if you have completed the Hep B series)</p> <p>Hepatitis B Immunizations</p> <p>Dose 1 date: ____/____/____</p> <p>Dose 2 date: ____/____/____</p> <p>Dose 3 date: ____/____/____</p> <p>Hepatitis B Surface Antibody titer (required if series above complete)</p> <p>Titer Date ____/____/____ (positive titer only meets requirement)</p> <hr/> <p style="text-align: center;">OR</p> <hr/> <p>B. History of Hep B infection: Core antibody & surface antigen titer results (these titers submitted in instance of prior infection). Only positive titers reflect history of past disease. If these titers are negative you should be immunized and obtain the surface antibody titer.</p> <p>Hepatitis B Core Antibody titer</p> <p>Titer Date ____/____/____</p> <p>Hepatitis B Surface Antigen titer</p> <p>Titer Date ____/____/____</p> <hr/> <p style="text-align: center;">OR</p> <hr/> <p>C. Received vaccination and titer didn't convert to positive: If you have completed the Hep B series of 3 immunizations and your titer doesn't convert to reactive/positive, you must obtain and submit the date for a 4th dose of Hep B. Also submit the date of the previous three immunizations and negative/non-reactive titer. If you have already received two full course of Hep B vaccination (6 doses – 2 series of 3 shots) submit the dates of ALL doses of vaccine and negative titer.</p> |

|---|--|
| Hepatitis B (cont'd) | <div style="text-align: center;">Hepatitis B Immunizations</div> <p>Dose 1 date: ____/____/____</p> <p>Dose 2 date: ____/____/____</p> <p>Dose 3 date: ____/____/____</p> <p>Dose 4 date: ____/____/____</p> <p>Dose 5 date: ____/____/____</p> <p>Dose 6 date: ____/____/____</p> <div style="text-align: center;">Hepatitis B Surface Antibody titer (required if series above complete)</div> <p>Titer Date ____/____/____ (<input type="checkbox"/> positive titer <input type="checkbox"/> negative titer)</p> <p>Notes: The Hepatitis B vaccination series requires 3 vaccinations given at minimum intervals of 0, 30 and 240 days (0, 1, and 6 months). Greater intervals are permissible. Do not restart a vaccination series; just pick up where you left off.</p> <p>Following the completion of the series, and at least 4 weeks after the last dose, a Hepatitis B <i>Surface Antibody</i> titer must be drawn to confirm immunity.</p> |
| TB Screening | |
| <ul style="list-style-type: none"> • Please complete the 'Negative TB Screen' section if you have a history of negative TB screening (skin test, QFT, TSPot) • Please complete the 'Positive TB Screen' section if you have a history of positive TB screening (skin test, QFT, TSPot) | |
| <p><u>Negative TB Screen</u></p> <p>(Please submit data for either A, B, or C. Any of the options will meet the requirement.)</p> <p>NOTE: A PPD skin test must be placed the SAME day as a live virus vaccine OR at least 28 days after the administration of a live virus vaccine to be considered valid. Live virus vaccines include measles, mumps, rubella, and varicella.</p> | <p>A. PPD Skin Test performed by either method below:</p> <p>Two-step PPD skin testing: Two PPD (tuberculosis skin testing) skin tests administered 7-31 days apart in the three months preceding entry into school, (Note: Do not have a TB skin test placed for 28 days following a live virus vaccine – must be placed same day as the live virus).</p> <p>Kaiser Permanente patients may have a slightly altered PPD skin test pattern. Kaiser requests that patient have a PPD skin test placed, come back 7 days later for a read and have the second skin test placed on that same day.</p> <p style="text-align: center;">or</p> <p>History of regular skin testing: Documentation of a TB skin test completed within the three months prior to starting school and documentation of an additional skin test completed within one year of the more recent test.</p> <p>PPD Test 1 Placement ____/____/____ Reading ____/____/____ reading ____ mm</p> <p>PPD Test 2 Placement ____/____/____ Reading ____/____/____ reading ____ mm</p> <p style="text-align: center;">OR</p> <p>B. QuantiFERON testing: Documentation of a negative QuantiFERON Gold test reported within three months of entering school, (positive test, see below)</p> <p>Test Date ____/____/____ (only a negative test meets requirement)</p> <p style="text-align: center;">OR</p> <p>C. T-SPOT testing: Documentation of a negative T-SPOT.TB test reported within three months of entering school, (positive test, see below)</p> <p>Test Date ____/____/____ (only a negative test meets requirement)</p> |
| <p><u>Positive TB Screen</u></p> <p>(Please submit data for D, E, and F. All data must be submitted to meet the requirement.)</p> | <p>D. POSITIVE skin test (reading > 10 mm) or POSITIVE QuantiFERON or POSITIVE T-SPOT:</p> <p>PPD Read Date ____/____/____ reading ____ mm</p> <p style="text-align: center;">OR</p> |

Student Name: _____

Positive TB Screen (Cont'd)

(Please submit data for **D, E, and F**. All data must be submitted to meet the requirement.)

QuantiFERON testing: Documentation of a positive QuantiFERON Gold test

Test Date ____/____/____

OR

T-SPOT testing: Documentation of a positive T-SPOT.TB test

Test Date ____/____/____

AND

E. Chest X-ray

- Chest x-ray report: required

x-ray results: ☐ normal ☐ abnormal

Date: ____/____/____

Note: Date of chest x-ray report must be within 3 months of entering UCSF if INH Therapy has been taken for less than 6 months. If 6 months of INH therapy taken, chest xray report can be from time of positive screen.

AND

F. INH therapy taken:

☐ yes ☐ no

Date started: ____/____/____ Date ended: ____/____/____

length of treatment ____ months

Question about BCG? Students born outside the U.S. who received BCG vaccine should follow the TB screening requirements as listed above. If you have had slight reactions to a PPD skin test in the past, it is recommended you opt for QuantiFERON or T-Spot testing.

TB Screening Questions REQUIRED

Have you ever received BCG?

☐ yes ☐ no if yes: Year ____ Country ____

Have you traveled and/or lived overseas in the past year?

Country of Birth ____

☐ yes ☐ no if yes: Countries ____

Last Return Date ____

Have you worked in a prison or homeless shelter in the past year?

☐ yes ☐ no

Have you entered a TB isolation room in the past year?

☐ yes ☐ no

Have you had exposure to a known case of TB in the past year?

☐ yes ☐ no

In the past six months have you experienced any of the following for greater than three weeks?

Excessive sweating at night

☐ yes ☐ no

Excessive weight loss

☐ yes ☐ no

Persistent coughing

☐ yes ☐ no

Excessive Fatigue

☐ yes ☐ no

Coughing up blood

☐ yes ☐ no

Hoarseness

☐ yes ☐ no

Persistent fever

☐ yes ☐ no
