

Can I schedule an appointment at a student health service at another UC campus?

Yes. Any UC campus student health service will treat an enrolled UC student from another campus the same as they treat their own students who are NOT enrolled in the UC Student Health Insurance Plan (SHIP). You will be subject to the same fees applied to non-UC SHIP students on that campus.

What do I need to bring to the appointment?

Proof of enrollment. Bring a copy of your fees statement showing that you have paid to enroll for the current term. Also bring a picture ID.

How do I make an appointment?

Contact that campus' student health service and let them know you are an enrolled UCSF student and would like to schedule an appointment. To find the phone number of any campus student health – visit their website:

What will the UC SHIP cover?

UC SHIP covers all services at a UC student health service at in-network rates. In addition, deductibles do not apply at any UC student health service. The plan will cover the benefits provided by the plan as described in the plan summary (found on the Forms page of the SHCS website). [SHCS website - benefit descriptions](#)

How much will it cost to be seen?

You will be charged the same rates that campus charges its own students who do NOT have UC-SHIP. Most campuses will require you to pay your bill (or be billed) and submit a claim to Anthem for reimbursement. If you do not have the UC SHIP plan, you should submit your bill to your insurance company for reimbursement.

Will I be billed?

You will either be asked to pay your bill at the time of service or billed by the health service for payment at a later date.

How do I file a claim?

Obtain an itemized bill from the health service, fill out the claim form on the SHCS website ([claim form - click here](#)), and mail both items to Anthem.

Is summer term any different?

Many UC campuses have different fees in the summer term than the regular school year. You will pay any fees assessed that campus' non-UC SHIP students for summer term.
